Recruiting Tutorials

The **Sensor and Measurement Science International Conference – SMSI 2025** will take place in Nuremberg, Germany (6 – 8 May 2025), parallel to the SENSOR+TEST, the world-leading international trade fair for sensor, measuring and testing technology.

The SMSI 2025 will spotlight the most recent innovations in appropriate metrology regulations, sophisticated measurement science and highly specialized sensors for the instrumentation of every possible process for monitoring our health and our environment are essential for relevant topics today, such as the Industrial Internet and the Internet of Things.

The SMSI Conference Committee would like to invite experts to submit tutorial proposals for enriching the SMSI 2025.

Tutorials will take place on **6 + 7 May 2025**, at the Exhibition Center in Nuremberg, Germany. Each accepted tutorial will take 90 minutes and may run in parallel.

Preferably, the tutorials should attract PhD students and people from industry like SENSOR+TEST exhibitors. Tutorials should not focus exclusively on the results or tools of the presenters or their organizations. Instead, they should provide a balanced overview of a technological and/or a promising research field.

Important Dates:

Deadline for tutorial proposal submission: Friday, 29 November 2024

Submission of Tutorial Proposals:

Please submit your proposal in accordance with the tutorial submission form.

For any questions, do not hesitate to contact the Conference Committee: contact@smsi-conference.com
